

Website launched, newsletter coming soon

We are happy to announce two exciting ways in which Sisters of Mercy Urgent Care can support you and the health of your employees.

Website launched—www.urgentcares.org

First of all, we have launched the Sisters of Mercy Urgent Care website at www.urgentcares.org. At our website you'll find lots of information about who we are and what we do. In addition, you can learn more about our physicians and how they can help your employees recover from on-the-job injuries and return to full duty in a timely manner. There are also maps to all of our centers, and you may print driving directions from your business to our closest Urgent Care center.

We welcome any feedback that you might have on our website along with any additions that you'd find helpful. Just use the simple form on the "Contact Us" page to e-mail us your thoughts.

E-mail newsletter—coming soon!

Secondly, we are currently hard at work creating the first issue of our free online newsletter, an informative and innovative electronic communiqué that can be delivered to your office each month via e-mail. Included will be articles, stories and interviews on national and local healthcare issues that will help you navigate today's challenging healthcare marketplace. We'll also have specific information about worker's compensation issues, regulatory requirements and how to obtain the most for your healthcare dollar.

If you'd like to receive our newsletter, just send an e-mail to bruce@urgentcares.com and let us know. If there are other people in your organization who would like to receive it too, they may also e-mail their request to us. Or you may call us at 281-3498 to request our first issue.

That's all for now. If you have any questions about this letter or any other matter that we can help you with, please don't hesitate to contact us.

We wish you well.
